

FACTS

Over \$1.5 Billion

in planned research park
improvements over the next
three years.*

**According to AURP North American Member Survey*

Creating Communities of Innovation

The Association of University Research Parks (AURP) is a professional association of university related research, science and technology parks. AURP's membership includes planned and operating parks, many of which contain technology incubators. A variety of university, government, not-for-profit and private companies interested in the development and operation of high tech economic development projects comprise AURP membership.

Member Benefits

- **Networking:** AURP's events bring together research park leaders for unmatched networking, collaboration and shared best practices.
- **Premier Education Opportunities:** AURP offers customized, on-site Research Parks 101 programs, innovative conference sessions and iParks Webinars to keep your park or organization on the cutting-edge.
- **Stay Informed:** A monthly newsletter keeps our members up-to-date on the latest in innovation and research park news.
- **Member Resources:** AURP offers personalized assistance to get your questions answered! Use our member database to contact members and draw business to you!

Research Park Membership Categories

Sustaining Membership: Open to those research parks, consultants and architects that are established leaders in the field and desire additional member benefits including a link and logo featured on the AURP Web site, invitation to the VIP reception at the International Conference and priority to serve as a speaker or moderator at AURP events.

Regular Membership: Regular Membership is for all university research, science and technology parks.

Associate Membership: Open to real estate developers, architects, operations and financing consultants, economic development entities and others interested in the development of research parks.

MISSION STATEMENT

AURP fosters innovation, commercialization and economic growth through university, industry and government partnerships.
